Jim Bird

CEO Boys and Girls Club of Youngstown

"This simple act of kindness is going to go a long way in keeping our kids safe as we continue to navigate the COVID health crisis and do whatever it takes to build great futures."

James Tressel

President of Youngstown State University

"We feel blessed that we have this opportunity to really make our employees and our students and or community confident, because all of these [Quad-Sinks] people going onto campus are going back into the community, so we want to make sure they go back into the community safe. We are proud we are the first university that had the opportunity to have our logos with proud beautiful graphics in various buildings, offices, stadiums, it makes our people feel special. We owe you [Personal Protected] a lot."

The Quad-Sink Can Be A Solution Anywhere

Every Quad-Sink Unit Provides;

- › High Volume - Service Over 6,000 People Without The Need For An Attendant.
- › High Speed - Provide 120 People, 20 Second Hand Washes Every 10 Minutes, 720 Every Hour
- › Safety - Social Separation Protection Barriers Engineered Into Its Patent Pending Design.
- › Mobile - Designed To Be Deployed When And Where Its Needed Most, Indoors or Outdoors.
- › Attractive - Custom Graphics To Represent Your Look Or Created Sponsorship Opportunities.

Universities

Universities like Youngstown State, Bowling Green, and more have implemented these as part of their safety precautions.

State Fairs

Enjoy those salty french fries and lemonade after washing your hands! Cater to high volume crowds that are looking for a fun and safe experience!

Airports

Integrate the most effective method for maintaining your guests wellbeing into the most dense and frequently interchanging of places such as airports.

Public Zoos

An adventure through any zoo should always begin and end with washing your hands! Our fun and inviting graphics can encourage your guests to safely have the zoo experience!

Speedways

Get on the fast track to being better equipped to take care of your guests! Be prepared to establish confidence in your guests that surround the track.

Organizations

Customize your unit to show exactly who you are and what you're about in the most attractive graphics. Sponsorships are also a popular option.

K-12 Schools

Mahoning County Commissioners allocated over 25 Quad-Sink's as part of their safety precautions for our students.

*Check out our Students First program!

Stadiums

Be prepared to have your fans cheering in the stadiums again; chanting their team on for the win! The Quad-Sink will cater to your volume of guests in an attractive and engaging way!

James Tressel
President of Youngstown State University

We feel blessed that we have this opportunity to really make our employees and our students and or community confident, because all of these [Quad-Sinks] people going onto campus are going back into the community, so we want to make sure they go back into the community safe. We are proud we are the first university that had the opportunity to have our logos with proud beautiful graphics in various buildings, offices, stadiums, it makes our people feel special. We owe [Personal Protected] a lot.

Michael Rulli
Ohio Senator

When you come to a ribbon cutting like this, where you can see a company use American ingenuity and pivot into something to help us fight the pandemic, it's a wonderful thing.

Alyse Consiglio
Principal Warren JFK

There are sinks and bathrooms but in small areas only 2-3 students could enter at once. We feed 100 students in 25 minutes that's handwashing and getting through the lunch line. This sink has been a great help!

Kim Sharshan
Principal Joshua Dixon Elementary

What a top notch product that will benefit so many in our quest to offer a safe and healthy environment to our students, staff, and community.

Tom Yazvac
Superintendent Springfield Local Schools

First of all , just by the design of this quad station, it keeps everybody socially distant so kids can move quickly, 20 seconds to wash their hands, grab a towel and move on, so kids can move through quickly while maintaining proper distance."
"Hand-washing never goes out of style. Pandemic or not, we have to keep hand washing, so we'll be using these long after the pandemic leaves us.

Greg Boerio
Interim Executive Director The Rich Center for Autism

Your hand washing stations are great! What a wonderful support across campus....and they look fantastic! Again, thank you so much for your support across campus and throughout the community.

David Ditzler
Mahoning County Commissioner

We thought, maybe this would give [students] more incentive to go to school in person. If we can provide one to them, then the school systems might say, 'This is great. We'll put one at the stadium for kids to wash, one inside the school, one in the cafeteria.

Audrey Tillis
Director of Office of Management & Budget at Mahoning County

I am so glad they [Mahoning Valley Schools] see the value in the product.

Amanda Blair
COO Expo Square Tulsa, OK

Tulsa's Expo Square has taken a proactive approach focused on guest safety. Working with Personal Protected created a partnership to have 10 Quad-Sinks customized, emphasizing mobility and maximizing sanitation opportunities. These innovative units provide an additional safety measure, building a foundation to continue events in a safe and responsible way.

Julie Gentile
Director of Environmental and Occupational Health and Safety YSU

These units are part of the university's comprehensive plans for a safe and healthy return to classes on campus. Health experts agree that washing your hands may be the single most effective W to the spread of the coronavirus.

Jim Bird
CEO Boys and Girls Club of Youngstown

This simple act of kindness is going to go a long way in keeping our kids safe as we continue to navigate the COVID health crisis and do whatever it takes to build great futures.

Justin Jennings
CEO Youngstown City Schools

Of course, they'll get a lot of use from our scholars when they come back to school and things return to something closer to normal. The Quad-Sinks are an added health and safety measure and will give even more peace of mind.
